Welcome

Welcome Cattle Producers!

Another exciting year at the Palm Ranch. We are building off the positives made in 2021 and 2022. 2023 saw us doing a lot of ET work on our donor cows. Those ET calves will be born in 2024 so I'm expecting a lot of nice bulls to be offered in 2025 and 2026.

Now for 2024. I feel this is the best offering of bulls top to bottom I have ever offered. I will be doing something a bit different this year. If I feel a bull is positive for certain traits I will state that first for each bull. Example: a bull that has calving ease traits will be tagged as calving ease. The traits I will highlight are calving ease, maternal, performance and carcass. Most will have 1 or 2 of these. Very few will have all four. I would like to expand that to feet and udder scores but they are traits that in my opinion, should not be assessed until the animal is at least 4 years old, better yet 8 years old. In an industry that wants to buy the next greatest thing, we are at least 3 calf crops removed from the problem. More likely we have added one calf crop after another with bad traits without even realizing it since feet and udder problems show up so much later.

After many years producing bulls, I have 3 things I would like you as cow/calf producers to consider: 1. Select aged bulls. There is more proof what that pedigree can and cannot do. With time the truth comes out and you also get more bang for your buck the first year with a slightly older bull. 2. Select phenotype first, numbers second. Look at the bulls and pick several that look good to you, then narrow the selection by looking at the pedigree and numbers to find one to fit your needs. 3. This may hurt my sale, but if you do crossbreeding, I want to encourage you to do SMART crossbreeding. What do I mean? Start with a base of Black Angus which has the most market recognition. Crossbreed to add value from a maternal and performance value standpoint. Do these things with a plan that makes financial sense. DO NOT make a mixing pot of your crossbreeding or you can lose consistency. I hope you find these suggestions helpful. I would really like you to come see the bulls ahead of the sale so I can provide guidance if needed. I would love to help you build your program over time and produce bulls that would work best for your operation.

Thank your your interest,

Nathan Palm
(605) 690-2019

All sale bulls will go back to Palm Angus Ranch and kept at no charge. They will be delivered after semen testing is completed in May or June. If you need your bull sooner please contact me.

TERMS & CONDITIONS: Terms and conditions will be determined by the auctioneer. Glacial Lakes Livestock will be clerking the sale. Please pay them sale day or make arrangements to do so.

LIABILITY: All persons who attend this sale do so at their own risk, legal or otherwise, for their safety or for the behavior of the animals. The owners and the sale staff assume no liability for property loss or any accident that may occur.

HERD HEALTH: All cattle will be accompanied by proper health certificates for immediate shipment. All young cattle have Zoetis 50K Enhanced EPD Profiles

TRUCKING:

Trucking is free up to 250 miles for bulls, trucking is the buyer's responsibility for females.

LIVESTOCK MORTALITY INSURANCE: To properly insure your investment, an agent from Martin-Trudeau Insurance will be on hand sale day. Palm Angus will pay half the premium on 2-yr-old and fall bulls that are purchased at \$5000 or more and yearling bulls \$4000 or more.

SUPPLEMENTAL INFORMATION:

Hope to have DNA information back by the time of the sale so we can update EPD numbers. Announcements from auction block regarding the cattle selling in this sale take precedence over information listed in this sale book. Up-to-date genetic recessive status can be viewed online at www.angus.org.

SIGHT UNSEEN PURCHASES: Please contact Nathan or any one of the livestock representatives if you cannot attend. We will handle the bid like you were in the seats. Your complete satisfaction is guaranteed.

FOOD AND REFRESHMENTS: Lunch will be served before the sale

50K DATA: You will notice that our EPD accuracies are much higher than most bulls being offered for sale. This is a reflection of our DNA analysis on each bull we sell. If you would like to review the Zoetis i50K data on any of our bulls, we would be happy to share this information with you.

- What a bull and always has been!
- I don't care what the numbers say. Sometimes being right down the middle is the best place to be.
- He is long, wide and deep
- Moves very well and good shape to his hoof
- Now let's talk about his pedigree. His dam is a flush sister to Brookdale Brutus. Brutus is making some really nice calves at my place. I guarantee you will like the Brutus sired bulls at next year's sale

DAM - BROOKDALE JODIE 260

GRANDAM - BROOKDALE JODIE 786

Performance

- This rascal is a BEEF bull.
- Wide made, deep ribbed a moderate frame
- If you sell your calves by the pound you really have to take a look at this guy!

- WOW! This guy is guaranteed to catch your eye. One of the top phenotypes in the sale.
- Long as a freight train, straight lines, smooth shoulders with a wide hip.
- Pedigree is stacked with phenotype: Bloodline x Aviator x Blackcap May
- My Bloodlines do have a tick more attitude so if you want tame cattle they might not be for you.

2-Year-Old Bull

Performance, Maternal

- Here's a beef bull. This is how I think an Angus bull is supposed to look. Does not look like a cow with a set of nuts.
- Wide and deep best describes him.
- Dam 550 did a hell of a job for me. Every calf she raised has made the sale.

- Wow! If you are looking for performance, look no further. This guy is real. No pampering here. Born in Texas, time on the road, dam being flushed, asked to breed cows at 12 months. That's right folks. He ran with some of my fall cows.
- I ask you, "How many bulls have you bought that know how to work, not just follow a feed wagon?"
- Dam is a big beast of a cow, yet a heavy milking, fertile cow. You will be seeing a lot of calves out of this cow in the future.

All sale bulls will go back to Palm Angus Ranch and kept at no charge. They will be delivered after semen testing is completed in May or June. If you need your bull sooner please contact me.

Maternal

- Moderate frame
- Super thick
- Easy keeping
- 3 traits in my opinion that make profitable cows.

Performance, Maternal

- A good looking rascal that should be closer to the front of the sale.
- Long spined with good depth of body
- Shows natural width of body
- Dam is a moderate, hard working cow.
Grandam 838 - I probably should have flushed her.

View the Auction Live! Bid Online... you're ringside right at your desk!

Buying online is as easy as 1, 2, 3...

1. Create an account at www.DVAuction.com under the "Register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction — a DV representative will notify you once you have been approved.
3. Tune in for the sale to make your purchases!

High Speed internet is required for successful bidding—be sure to check the log-time monitor in the top left corner to ensure real-time broadcasts.
 Proxy-bidding — if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

K555 is a one-of-a-kind of bull with excellent herdsire credentials beginning with his rock-solid maternal heritage. A standout since birth and at weaning, K555 continued to jump through all the hoops recording a 124 WR and a 114 YR with a 113 RE ratio. His 76 lb. bw suggests he should be an ideal "go to" heifer sire. 555 is a high volumed, thick-ended bull who is smooth-shouldered and neat-fronted. His dam, OX13, is a magnificent EXT daughter that will impress the most astute cattleman. The grandam, 3M18, was a featured donor for both Sinclair and ZWT in Tennessee for many years. The Ideal 4465 cow family needs no introduction as volumes can be written on their success in the Angus breed. This is one unique breeding tool whose dam offers an outcross to many of today's popular bloodlines.
